UNIVERSITY COLLEGE of  
AVIATION MALAYSIA

**Duration** : 2.5 – 3 years

**Requirements** : • Pass SPM with 3 credits including Mathematics/Accounting, Science and English;

or

- Any equivalent qualification.

## Program Information

Flight dispatching is a fascinating feat. Within its duties, it involves fine organization and careful intricacy from monitoring flight operation to orchestrating an aircraft's entire journey. A license from the Aviation Authority must be obtained, but before awarded one, it has to be clear that extensive knowledge of safety, aviation, meteorology and they like vital for the flight dispatcher to properly perform the job. If that is the goal you are wanting, then consider our Diploma in Flight Operation Management.

This course will prepare you and your goal of becoming a licensed, well-versed flight dispatcher. Being a Flight Dispatcher isn't the only job option for a student taking this course. The option also opens up to other lines of work such as corporate management since this course imprints practical organization and planning skills on the students.
